

Customer Service Alert - Fake "HUD" Website

We wanted to let residents know about a deceptive website that is posing as the United States Department of Housing & Urban Development (HUD) website. This website is deliberately deceiving the public by using the HUD name in the web address as well as on the website. The website tries to dupe people into giving out personal information (known as “phishing”) - and because the site appears to be an “official U.S. Government website,” some people may fall prey to this scam. The fake website is: <http://bailout.hud-gov.us/>. The federal Inspector General has been notified, and is investigating.

Please avoid this website. To reach the official U.S. HUD website, please go to: <http://www.hud.gov/>.
