April, 2011

Dear Child Care Provider,

We'd like to introduce ourselves to you; we are both pediatricians at the University of South Florida and serve as the child care liaisons for the American Academy of Pediatrics (AAP) Florida Chapter. We appreciate all the time and love you put into caring for children in our county and want to thank you. We are working closely with Mike Bross from the Hillsborough County Child Care Licensing Program to extend educational opportunities to you that will include email material, on-line education and face to face workshops. The first opportunity is an exciting on-line educational tool sponsored by the AAP as part of their Healthy Child Care America program. The website for the program can be found at www.healthychildcare.org. The next opportunity will be a two-hour in-service program currently planned for May.

The Healthy Child Care America program has both a monthly newsletter and a Standard of the Month published electronically. We'd like to create an email list serve of all providers interested in receiving these on a monthly basis. If you are one of them, please send an email to Gina Knowlton (knowlton@hillsboroughcounty.org) stating your interest and preferred email address. If you prefer to respond in writing, complete the next line and mail to Gina at Hillsborough County Child Care Licensing, 3110 Clay Mangum Lane, Tampa 33618.

YES, I want to receive the newsletter.

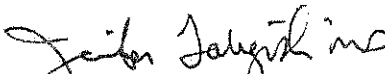

Name: _____

Email: _____

We both look forward to working with you.

Sincerely,

Sharon Dabrow, MD

Jennifer Takagishi, MD
