BRANDON HIGH SCHOOL – HOME OF THE EAGLES

Debora Brown,

As consumers we are not fully aware of the dangers we face in our high-tech world. Your program gives students the knowledge they need to become self-advocates as they venture out into society and become more independent. The subjects you speak on are relevant to our students and they take away valuable information to safeguard themselves and their families. I myself have learned a great deal from your program and am available as a reference for any teacher or school that would like to know about you and the topics you speak on. You have a gift for making the students active participants in your presentations. Thank you for the awesome job you do and I will do my best to help you promote your program at senior assemblies throughout our county.

Sincerely,

Kathleen Tomlinson

EAST BAY HIGH SCHOOL – HOME OF THE INDIANS

Debora Brown from the Hillsborough County Consumer Protection Agency has conducted in-class programs on consumer issues such as personal safety, cyber safety, avoiding scholarship scams, car buying, consumer credit, and tenant/landlord lease agreements. Here at East Bay High School, Debora has greatly enhanced the Senior Survival program with all of these presentations. With today's rapidly changing technology this program is more than influential, it is necessary in order for the next generation to be prepared for life as an adult.

To Whom It May Concern

Debora Brown has spoken to my Family Dynamics Class this year, discussing Cyber Crime. Through an informative power point presentation, Debora illustrates the dangers of cyber crime. With examples of emails from the internet, all students realize how difficult it is to detect fake documents.

Previously in Senior Survival Classes, Debora spoke on all topics giving very current data and issuing warnings on pitfalls in buying a car, renting an apartment, etc.

Debora is a very professional speaker who brings information to students that is vital to their development as cautious consumers.

Sincerely,

Judy White

DURANT HIGH SCHOOL – HOME OF THE COUGARS

Protecting and informing today's young consumers is made easier by having Mrs. Brown, present her programs to your students. The students learn so much about topics such as Cyberspace, Insurance, Consumer Laws and much more. Her information is current and timely for the teen consumers. She presents topics of interest to them and information they need to know. In addition, she provides many handouts and information that is useful to the classroom teacher. As a new teacher to Florida, I found the information helpful in my professional and personal life.

Mary Lawal, Teacher
Durant High School

HILLSBOROUGH HIGH SCHOOL – HOME OF THE BIG RED

Debbie,

Your presentations to my students were very informative and helpful. I think they especially found the information on cybercrime to be important and useful.

Carol Blake, Teacher
Hillsborough High School
