

Mental Health Advance Directive

If you believe you may be hospitalized for mental health care in the future and that your doctor may think you aren't able to make good decisions about your treatment, then completing a mental health advance directive will ensure that your treatment choices are known. It is important that you decide **NOW** what types of treatment you do or do not want and to appoint a friend or family member to make the mental health care decisions that you want carried out. You may always change your preferences or surrogate later.

You can use the following Advance Directive form to direct your future care.

- Read each section of the form carefully and talk about your choices with someone you trust.
- The person you choose to be your health care surrogate and alternate must be a competent adult whose civil rights have not been taken away. The person you choose should **not** be a mental health professional, an employee of a facility that might provide services to you, an employee of the Department of Children & Family Services or a member of the Local Advocacy Council.
- You should sign the form in front of two witnesses.
- Make sure your surrogate understands your wishes and is willing to accept the responsibility. Your surrogate (and a back-up alternate surrogate if you wish) should sign this form now or at a later time to show they are aware you have chosen them to be your surrogate.
- Have copies made and give them to your surrogate, your case manager, your doctor, the hospital or crisis unit at which you are most likely be treated, your family and anyone else who might be involved in your care. Discuss your choices with each of them.
- The document should be available quickly if you need it. If you travel, be sure to take a copy with you.

Your advance directive will not take effect unless a physician decides that you are not competent to make your own treatment decisions. If you are in a psychiatric facility, you will have an attorney appointed to represent your interests and a hearing in front of a judge or hearing master. A health care surrogate is not authorized to consent to treatment for a person on voluntary status.

I, _____, being of sound mind, willfully and voluntarily execute this mental health advance directive to assure that if I should be found incompetent to consent to my own mental health treatment, my choices regarding my treatment will be carried out despite my inability to make informed decisions for myself.

If a guardian, guardian advocate or other decisionmaker is appointed by a court to make health care or mental health decisions for me, I intend this document to take precedence over all other means of determining my intent while competent. This document represents my wishes, and it should be given the greatest possible legal weight and respect. If the surrogate(s) named in this directive are not available, my wishes shall be binding on whoever is appointed to make such decisions.

If I become incompetent to make decisions about my own mental health treatment, I have authorized a mental health care surrogate to make certain treatment decisions for me. My surrogate is also authorized to apply for public benefits to defray the cost of my health care, to release information to appropriate persons and to authorize my transfer from a health care facility.
