
INTERFUND TRANSFERS

The following table presents a four-year comparison of interfund transfers. Like most four-year schedules in this document, this table presents actuals for FY 08 and FY 09, the adopted budget for FY 10, and the planned budget for FY 11.

All interfund transactions that are not loans, reimbursements or quasi-external transactions are classified as transfers. Transfers are of two types: residual equity transfers and operating transfers.

Residual equity transfers are defined as "nonrecurring or non-routine transfers of equity between funds." The GASB's Codification, Section 1800.106, specifically cites the following examples:

- Contributions of capital to proprietary funds.
- The subsequent return to the general fund of capital contributed to proprietary funds.
- Transfers of residual balances of discontinued funds to the general fund or a debt service fund.

All transfers that do not qualify as residual equity transfers are properly classified as operating transfers. Often operating transfers reflect ongoing operating subsidies between funds. For example, the Unincorporated Area General Fund reflects its

annual subsidy to the Transportation Trust Fund as an operating transfer.

The majority of the interfund transfers identified on the following schedule are operating transfers as opposed to residual equity transfers.

The organization of these interfund transfers is by fund, so that it is generally clear where the transfer originates (appropriation) and the destination of the transfer (revenue). Many of the transfers reflect the movement of funds from restricted funds established to account for the proceeds of certain revenues (e.g. Sales Tax Revenue Fund) to an operating or project fund where the County portion of the proceeds are actually expended.

All capital project and grant subfunds are budgeted on an "all-years" basis. As such, each year's budget only reflects the annual change in funding and does not include any carryover appropriation from prior years. All-years budgeting of interfund transfers, as shown on this schedule, will only reflect the annual increase or decrease in the specific transfer, resulting in instances of a negative transfer in any given year.

For more information on any of these transfers, please contact the Management and Budget Department at (813) 272-5890.
