Contractor Licensing Division

I wanted to take a moment to compliment Edith Wimbush. All of my experience with Ms. Wimbush has been over the phone. All of my experience has been positive and brings a smile to my face. She goes the extra mile. Thus my decision to let someone know of my good fortune!

Pulling permits in 21 states has given me broad perspectives on people in licensing offices and Edith Wimbush is most remarkable.

One example that shines through is of Paul Corbitt. Paul Corbitt, our qualifier died after a brief fight with cancer. We had decided to take the test and become licensed. That we did and when we had a job in Hillsborough County our local license was still under Paul. Edith went to great lengths to help us switch over and in a timely fashion. She was professional but caring. She guided us and informed us of all the necessary steps. She followed up!

I wanted someone to know of the good experience I have had in working with Ms. Wimbush.

Best Regards,

  
Karen Oliver
