

# MORE ABOUT PLASTICS

What happens to the plastics collected in recycling programs?

## green theme

### Plastic type 1 (PETE) is recycled into:

- fiber for carpet
- fleece jackets, comforter fill, tote bags
- containers for food, beverages and non-food items

### Plastic type 2 (HDPE) is recycled into:

- bottles for non-food items like shampoo, conditioner, liquid laundry detergent, household cleaners
- plastic lumber for outdoor decking, fencing and picnic tables
- floor tiles, buckets, crates, flower pots, recycling bins
