HILLSBOROUGH COUNTY

WATER, WASTEWATER, AND RECLAIMED WATER
TECHNICAL MANUAL

FOR

SUBDIVISION AND SITE DEVELOPMENT PROJECTS

To: **All Users of the Water, Wastewater, and Reclaimed Water Technical Manual**

From: **Engineering Services Group, Public Utilities Department**

This manual contains current information for designing and submitting potable water, wastewater, and reclaimed water construction plans for proposed commercial and subdivision projects to be constructed in unincorporated Hillsborough County. It also contains current information for submitting these construction plans. It is a readily useable reference document written in specific, concise technical language and is a compilation of existing regulations, policy statements, and engineering requirements. The manual will be reviewed and updated as necessary.

We trust that the manual proves to be of significant value to you, making coordination of your project easier, and that when applicable, facilitates the planning, design, and construction of your project in conformance to the County's standards and requirements.

TABLE OF CONTENTS

Page

SECTION 1	PROJECT REVIEW AND ACCEPTANCE PROCESS	
1.1	Introduction	1
1.2	Project Review Process	2
1.3	Right-of-Way Use Permit Submittals	4
1.4	Dedication of Easements	4
1.5	Authority of Inspectors	5
1.6	Requirements of Acceptance	5
1.7	Utilities Product Review Committee	8
1.8	Technical Manual Revision Procedure	9
SECTION 2	PREPARATION OF MASTER PLANS, CONSTRUCTION PLANS, AND RECORD DRAWINGS	
2.1	Master Plan	1
2.2	Construction Plan Format	2
2.3	Standard Items for Construction Plan Review	4
2.4	Record Drawing Submittals	8
SECTION 3	SPECIFICATIONS FOR DRINKING WATER DISTRIBUTION SYSTEMS DESIGN	
3.1	General	1
3.2	Plans Preparation	1
3.3	Plans Review	2
3.4	System Design and Flow Criteria	2
3.5	Water Details	6
SECTION 4	SPECIFICATIONS FOR WASTEWATER COLLECTION/TRANSMISSION SYSTEMS DESIGN	
4.1	General	1
4.2	Plans Preparation	1
4.3	Plans Review	2
4.4	System Design and Flow Criteria	2
4.5	Wastewater Details	5
SECTION 5	SPECIFICATIONS FOR RECLAIMED WATER SYSTEMS DESIGN	
5.1	General	1
5.2	Plans Preparation	1
5.3	Plans Review	2
5.4	Project Acceptance	2
5.5	System Design	2
5.6	Reclaimed Water Details	4

APPENDICES

- 1 Construction Plan Check List – All Plans
- 2 Water Flow Peaking Factors
- 3 Construction Feature Information and Asset Data Spreadsheet
- 4 Oversizing Process and Oversizing Reimbursement Program
- 5 Wastewater Flow Peaking Factors
