

Residential Solar Voltaic Online Permitting and Inspection Requirements

Permitting Process

1. Anyone with a Florida, EC or ER license can apply for a residential PVS Permit on velocity hall.
2. Permit Fees:
 - You must pay for 2 inspections
 1. Electrical Rough In (250 inspection)
 2. Electrical Final (299 inspection)
3. Notice of Commencement: A recorded certified copy of the Notice of Commencement in accordance with Section 713.13 of the Florida Statutes is required to be submitted prior to the first inspection. **Note:** A copy of the (NOC) can be *emailed to* permitting@hillsboroughcounty.org.
4. **Solar PVS panels and solar equipment may not be attached to exterior walls or on the roof of the mobile home.**

Preparing for field inspections:

1. Please schedule your electrical rough in Inspection (250) on the day you are beginning your rough in activities. Rough in need not be complete. The inspector will audit all materials and fasteners whether installed or on the ground.
2. Provide the electrical inspector a signed and sealed drawing indicating conformance to the wind zone code.
3. Provide the electrical inspector a signed and sealed 3 line electrical drawing.
4. Provide the electrical inspector with a signed and sealed materials list to include all solar equipment, equipment part numbers and fasteners.
 - a. **The materials list, 3 line electrical drawing and wind zone conformance may be submitted on one drawing that is signed and sealed by the Design Professional**
5. Upon approval of your electrical rough in inspection you may schedule your final electrical inspection (299).
