Effective: JUNE 2019  
1 of 3
The Permittee, shall indemnify, defend, and hold harmless Hillsborough County and all of its officers, agents and employees from any claim, loss, damage, cost, charge or expense arising out of any acts, actions, neglect or omission by the Permittee, it's agents, employees, or subcontractors during the performance of the Project, whether direct or indirect, and whether to any person or property to which the County or said parties may be subject, except that neither the Permittee nor any of its subcontractors will be liable under this Article for damages arising out of the injury or damage to persons or property directly caused or resulting from the SOLE negligence of the County or any of its officers, agents or employees.

Contractor’s obligation to indemnify, defend, and pay for the defense or at the County’s option, to participate and associate with the County in the defense and trial of any damage claim or suit and any related settlement negotiations, shall be triggered by the County’s notice of claim for indemnification to Contractor. Contractor’s inability to evaluate liability or its evaluation of liability shall not excuse Contractor’s duty to defend and indemnify within seven days after such notice by the County is given by registered mail. Only an adjudication or judgment after highest appeal is exhausted specifically finding the County SOLELY negligent shall excuse performance of this provision by Contractor. Contractor shall pay all costs and fees related to this obligation and its enforcement by the County. County failure to notify Contractor of a claim shall not release Contractor of the above duty to defend.

It is understood and agreed that the rights and privileges herein set out are granted only to the extent of the County’s right, title and interest in the land to be entered upon and used by the Permittee, and the Permittee will, at all times, assume all risk of and indemnify, defend, and save harmless Hillsborough County from and against any and all loss, damage, cost of expense arising in any manner on account of the exercise or attempted exercises by said Permittee of the aforesaid rights and privileges.

During the event, all safety regulations of the County shall be observed and the holder must take measures, including placing and display of safety devices, that may be necessary in order to safely conduct the public through the project area in accordance with the Federal Manual on Uniform Traffic Control Devices (MUTCD), as amended, and the latest Florida Department of Transportation’s (FDOT) “Roadway Traffic Design Standards.” The County reserves the right to request a lane closure analysis in accordance with the latest version of the FDOT’s Plan and Preparation manual.

In case of non-compliance with the County’s requirements in effect as of the approved date of this permit, this permit is void and the facility will have to be brought into compliance or removed from the R/W at no cost to the County.

When a permit includes a road closure, the applicant is required to post VMBs as public notification on the subject roadway a minimum of seven days prior to initiating the closure. The notification signs shall include the proposed start and finish date of the closure, special hours of the closure, if applicable, and a telephone number (272-5275) for additional information. If the applicant fails to install the required sign the permit will be revoked. Projects that are limited to lane realignments are not required to post the advisory signs.

Application must be received a minimum of five days prior to the proposed implementation date, and at least thirty days prior for road closures. The application will be reviewed and returned to the applicant within five days from the time it was received by the Hillsborough County Right-of-Way Office. Complex projects requiring extensive travel lane realignments, traffic signal modifications, or multiple closures will require an extended review time.

Times and dates on permits are for normal work days only. Any work done outside these hours must be approved on a separate permit. In Hillsborough County working hours are established by the Temporary Traffic Control Permitting Agent. The normal working hours have been established as follows: High volume roads: 9:00 AM to 4:00 PM. Low volume roads 8:00 AM to 5:00 PM. Any work done outside these hours require special permitting and must be approved by the TTC Permitting Agent.

In cases where severe weather is imminent, the Project Manager and contractor(s), must have a comprehensive emergency action plan to prepare and to secure his/her job site according with the Hillsborough County Standard Operating Procedures and Guidelines for severe weather event preparation.

SIGNATURE OF PERMITTEE REQUIRED:
I HAVE READ AND UNDERSTAND THE ABOVE AND AGREE TO SAID TERMS.
