BOCC POLICY: SECTION NUMBER 01.31.00.00

SUBJECT: HISTORIC PRESERVATION “CHALLENGE GRANT” PROGRAM

DATE: August 16, 2017

SUPERCEDES: July 17, 2013

PURPOSE:
To promote historic preservation, heritage tourism, and related economic development within Hillsborough County (both incorporated and unincorporated areas), the Historic Preservation Challenge Grant Program is established.

POLICY:
Available grant funds will be awarded to applicants selected pursuant to this policy on a minimum of 1:1 matching basis. No award recipient shall receive more than $250,000 per project in any county budget year.

APPLICATION CYCLE:
There will be one (1) application cycle per year. One additional cycle may be added per fiscal year, based on funding and need levels, as determined by the County Administrator. Application deadlines shall be established administratively.

GRANT REVIEW COMMITTEE:
A Grant Review Committee (“Committee”) will be appointed by the Board of County Commissioners (“BOCC”). The Committee will be comprised of nine (9) Hillsborough County (incorporated and unincorporated) citizens who have expertise in one or more of the following areas: historic preservation, architecture, heritage tourism, marketing and economic development, landscape architecture, and interior design. The Committee must include residents from the unincorporated County and at least one resident of Temple Terrace, Plant City, and Tampa. Committee members shall serve for a term of two (2) years. There is no limit to the number of terms a Committee member may serve.

STAFF PARTICIPATION:
The County Administrator shall designate staff with responsibility and experience in economic development, tourism, community development and historic preservation to review all submitted applications for Program eligibility before Committee review. The designated staff will assist the Committee with the review and analysis of eligible applications, but will not have a vote on the Committee.
APPLICATION REVIEW PROCESS:
Applications will be ranked and prioritized by the Committee based on the final points accrued by each eligible applicant pursuant to the requirements outlined in this policy. The score of an application may not necessarily be the sole means by which funding recommendations are made by the Committee.

FINAL DECISION ON AWARDS:
The Committee’s recommendations will be forwarded to the BOCC for final approval.

ELIGIBILITY REQUIREMENTS:

Project Types
Projects eligible for funding must fall within one or more of the following project types. Ranking criteria must be established by the Committee to prioritize project types for funding based on BOCC’s desired policy objectives.

1. Rehabilitation/Restoration of Historic Structures. This type is defined as: interior and/or exterior preservation, rehabilitation, restoration, reconstruction or relocation of an existing “historic building” (one that meets National Register listing criteria -- either on the National Register of Historic Places; locally designated as a “landmark” under County/City Ordinance; a contributing structure within a National Register or Local Historic District; or otherwise may be eligible under National Register criteria). Projects may include, without limitation, renovation of an existing historic property to meet code requirements, installation of security related equipment or improvements, or structural stabilization, including “moth-balling” of structures that without emergency measures may be lost, including associated engineering and architectural costs.

2. Compatible Additions to Historic Properties. This type is defined as: additions or alterations to facilitate adaptive reuse, construction of architecturally appropriate kiosks, information facilities or utility structures or security related equipment or improvements, including associated engineering and architectural costs, for historic buildings as described in Project Type 1, above. Eligible projects also may include reconstruction of lost historic resources.

3. Improvements to Historic Sites or Grounds. This type is defined as: restoration/reuse of other non-building historic places, including security related equipment or improvements (e.g. cemeteries, gardens), including associated engineering and architectural costs.

4. Architectural Heritage Tourism Projects. This type is defined as: non-building projects that promote existing historic resources and heritage tourism, such as: development of print or electronic materials/brochures that support the mission, interpretive, promotional or way finding signage, or exhibit/tour development.
