Explanation of Charges:

CUSTOMER BILL CHARGE is the net cost for all customers' account management activities and is charged on every bill generated during the fiscal year.

PURCHASED WATER CHARGE is a volumetric charge based on the cost of water purchased by the County from suppliers. The pass-through charge is applied to all billable potable water consumption.

WATER BASE CHARGE is designed to recover a portion of all fixed costs for the water system. Fixed costs include debt service, personnel cost, and operating costs not related to the amount of water produced or treated.

WATER CONSUMPTION CHARGE includes all variable costs for producing and treating water and the remainder of the fixed costs not recovered through the water base charge. Water consumption charges are billed per 1,000 gallons of metered flow.

RECLAIMED WATER CHARGE is designed to recover variable and fixed costs associated with the treatment and supply of reclaimed water.

SEWER BASE FACILITY CHARGE is designed to recover a portion of the fixed costs

for the wastewater system. Fixed costs include debt service, personnel costs, and operating costs not related to the amount of wastewater treated and effluent disposal.

SEWER USAGE CHARGE includes the variable costs of treating and disposing of wastewater and includes the balance of the fixed costs not recovered through the wastewater base charge. Wastewater usage charges are billed per 1,000 gallons of metered flow. Residential wastewater usage is capped at 8,000 gallons per month on accounts read monthly and 16,000 gallons on accounts whose meter is read every other month. Commercial wastewater customers pay the wastewater usage charge for all billable water consumption.
